## SUSHI & SALADS

Ethically sourced fish is at the heart of what we do, and we've been at the forefront of campaigning for better fishing practise since 1998, and have made ground-breaking initiatives to source directly from small scale fishers from around the UK. Though not perfect, I can say with confidence that Moshi Moshi is the most ethically sourced sushi you will find in the UK, and because of the provenance of our fish, it is also top-notch quality.

*Caroline Bennett, Moshi Moshi founder & owner*

## HOT DISHES

All our meat comes from a father and son managed farm in Essex who wanted to see the very best from rare and traditional breeds back on the diners table. They believe fervently in the quality of the meat produced from their animals that have been reared in totally free-range environments and fed only on natural foods that are free of any form of growth promoters.
